CWRC DECK APPLICATION & SELF-INSPECTION

Complete this page after the deck work is installed

PROPERTY ADDRESS

PPRBD PERMIT NUMBER

DECK SELF-INSPECTION

For Class 2 work, the unenclosed deck walking surface must use an allowed CWRC 404.5 material. Confirm the selected material option on page 1. FRT means fire-retardant-treated.

	YES	NO	N/A
The installed walking surface matches the material option and product identified on page 1.	○	○	○
Product documentation supports the selected material option; exterior FRT wood is identified for exterior use as required by the code.	○	○	○
Any project-specific BFFR conditions for the deck / porch and related attachments have been completed.	○	○	○
Work requiring a separate PPRBD permit or inspection has not been treated as approved solely by completing this form.	○	○	○

I inspected the completed deck work and certify that these responses describe the installed condition. I have explained incomplete items below. BFFR inspection and approval remain required when applicable.
